

## WE'RE THE ENGINE EXPERTS FROM PRINCE EDWARD ISLAND

*Which May Explain Why We're Such Good Listeners*

At Atlantic Turbines, we've built our reputation on listening to our customers. We listen when they tell us they need engines overhauled quickly. When they say they want flexible pricing. When they ask us for more options. Maybe we're good listeners because we're from Prince Edward Island, Canada, population 140,000, where the winters are never longer than the stories. Of course, we do more than listen. We respond with fast and reliable OEM-authorized services for both business and commercial aircraft engines. Simply ask the owners of the thousands of engines we've serviced.

Atlantic Turbines.

When it comes to your engine, we hear you.

### THE ATLANTIC TURBINES DIFFERENCE

#### *Personalized Workscopes*

Receive a comprehensive assessment of your engine's condition, supported by photographic documentation, defining the specific workscope requested and any additional work needed.

#### *Personalized Customer Service*

Each customer is assigned a dedicated Customer Support Manager, so you always have clear communication with us throughout the repair process.

#### *Flexible, Competitive Pricing*

We understand the investment you're making in your engine. That's why we inform you of choices regarding new or reconditioned parts. And we can provide you with time and material proposals, guaranteed maintenance cost, and cost-per-hour options.

#### *Fast Turnaround Times*

Atlantic has earned a reputation for responsive, high-quality work that could save you days or weeks off your repair. And rental engines are available to minimize aircraft downtime.

#### *StandUp Warranty*

We guarantee our work with one of the best warranties in the business, and we stand up and deliver on our promise to honor it.

**REPAIR  
CAPABILITIES**
